SPARE PARTS FOR CONCRETE PUMPS, TRANSIT MIXERS & BATCHING PLANTS

www.saudidamico.com

Introduction

Since beginning DAMICO has been specializing in the supplying of components and replacement parts for concrete pumps, transit mixers, batching plants and construction equipments.

DAMICO has an outstanding position in the market with its well-conducted team, high quality products and service. DAMICO's skilled staffs are very sensitive to customer needs and technological evolution – both in terms of products and working methods.

The respect and loyalty which you can breathe in DAMICO obviously transpire also in the relations with our partners, as we like calling both our suppliers and customers.

Our wide products availability allows us to fulfill customer requirements in a very short time. There is no limit for our supply range; everything is possible.

DAMICO is committed to become a leading provider of high quality parts meeting and exceeding customer expectations through continual improvement of its products & services.

We wish to thank sincerely all the people who allowed DAMICO to become one of the most specialized companies in the field of components for concrete machines. A special thanks to all our customers have always appreciated our dynamism, reliability and quality. Thanks everybody.
